Dear Senators Schatz, Wicker, Cochran, Cardin, Thune and Warner:

On behalf of the Mental Health Liaison Group (MHLG), the undersigned organizations are writing today to express our support for the CONNECT for Health Act, S. 1016.

MHLG is a coalition of national organizations representing mental health and substance use disorder (MH/SUD) consumers, providers, family members, payers, and other MH/SUD stakeholders. Together, on behalf of the millions of Americans living with MH/SUD, their families, and communities, we advocate for public policies and funding to improve access to high-quality care.

Given that approximately 25% of the adult population in the United States is reported to have a mental illness, and the fact that there is a growing shortage of behavioral health providers to respond to this significant need for service, the expansion of telehealth is critical. Telehealth services have been proven to drive important advancements for patients, expand access to care, improve health outcomes, overcome the stigma barrier, and reduce costs.

The CONNECT for Health Act would address this important issue by increasing the use of telehealth and eliminating many of the barriers to its accessibility. We specifically applaud Section 12 (Expanding the Use of Telehealth for Mental Health Services), which would expand telementalhealth by allowing the Secretary to lift current Medicare restrictions for some mental health services; most notable recognizing the patient's home as an eligible originating site for receiving telehealth services. Telementalhealth has the ability to reach a broad range of behavioral health consumers; and by eliminating some of the limitations on the use of telehealth monitoring services in Medicare, your legislation will help many patients access needed care.

National organizations representing consumers, family members, advocates, professionals and providers  
c/o Laurel Stine, JD, American Psychological Association at [lstine@apa.org](mailto:lstine@apa.org), Angela Kimball, National Alliance on Mental Illness at [akimball@nami.org](mailto:akimball@nami.org) and Debbie Plotnick, MSS, MLSP, Mental Health America at [dplotnick@mentalhealthamerica.net](mailto:dplotnick@mentalhealthamerica.net)

Thank you for your leadership and continued dedication to expanding access to telehealth. The MHLG looks forward to working with you to ensure the passage of this important legislation.

Sincerely,
